

## ***Appendix 1.***

Mrs Liz Loch had requested to speak to the Community Council regarding a suggestion which had arisen following a financial donation from the filming of a TV programme in St Hilary.

Some play equipment has been suggested due to a number of families with young children recently moving into the village and investigations had highlighted that a third of households had children and grandchildren who would benefit from this facility.

The project will require substantial fundraising and grant funding.

Possible locations had been identified as the Village Green and the Square by the Electricity box. Both would require consultation with the Vale of Glamorgan Council, being the landowner. Furthermore, the Village, being a Conservation Area in its entirety, the project will be subject to planning considerations.

Support is likely to be sought from the Community Council for the project.

The Members agreed to support the Project as requested.
